

Batch Data Services

Servicing legal providers with high volume needs.

Eliminate the busy work

For large cases, streamline your efforts with Tracers batching services.

This batch processing service is perfect for bankruptcy, class-action litigation, or and product liability. Tracers can quickly validate and locate a high volume of relevant parties. When you need to access a large amount of phone numbers and addresses, information on businesses, or individuals or assets, Tracers batch services is the perfect solution. Our batch services can process thousands of searches at once to sift through our extensive database of over 42 billion public records, to provide you with the data most specific to your use, and Tracers will securely return it to you.

Utilize batch services to:

- Locate class action/ mass tort members, debtors, assets, and witnesses.
- Update client contact information in large mailing lists, thus eliminating the need for manual searches.

Datasets include:

- Social Media
- Vehicle Searches
- Relationship Reports
- Premium Profile Reports
- Places of Employment
- Landline and Cell numbers
- Evictions
- Arrest Records
- OFAC Searches
- Criminal Records
- National Warrants
- Sex Offender Searches
- SSN Verifier Plus
- Deceased Records
- Bankruptcies, Liens, & Judgements
- Residential and Business Addresses
- State Driving Records and Registration
- and more!
