

We have the data.

Search, Contact, and Collect.

Tracers leads you to superior collection results.

Our in-depth data will help you get to the information you need.

Tracers is a simple and affordable solution to help recover debt faster and more effectively. We understand the importance of smart collecting with accuracy, efficiency, and speed. We work with all industries for their collection needs including: collection agencies, collection attorneys, debt buyers, healthcare, financial institutions, and more.

Our basic reports contain the right-party contact info you need with current landlines, cell phones, addresses (and history), relatives, and associates - everything you need to help you skip trace your way to successful collections results.

You can customize your reports with as many or as few search options as you wish.

Smarter debt recovery solutions:

- Pinpoint right-party contacts
- Increase recovery rates
- Reduce errors and omissions
- Utilize pricing plans and options to optimize your collecting goals
- Shorten your collections lifecycle
- Control access for individual collectors (in accordance with regulatory compliance)

Collect by using any of the following methods:

Direct Online:

Ordering directly online on our new best-in-class skip tracing platform.

Batch Processing Services:

A quick, easy, and affordable way to append phone numbers for right-party contact, or to scrub any or all of your accounts for bankruptcy or deceased records.

Integration:

Tracers' API can be integrated into third-party platforms for high volume processing.

Collections criteria:

- Current and historical names
- Assets
- Deceased records
- Place of employment records
- Relatives
- Bankruptcy records
- Mobile and landline phone numbers
- Associates
- Tax liens and judgments
- Current address records with 40 year histories
