

We have the data.

Eviction Searches

Tracers leads you to superior search results.

The leading search algorithm and quality comprehensive data provided by Tracers helps you find the eviction information your business requires. Even with minimal information, Tracers can uncover the hardest to find, need-to-know data.

Unlike some evictions searches, our evictions searches are not performed in just one jurisdiction or municipality, but are performed based on an individual's entire address history.

Tracers has valuable eviction data to cover all 50 U.S. states, the District of Columbia, and Guam. Our search technology will also use an individual's identifiers (such as aliases, date of birth, and addresses) to uncover additional eviction data.

Additional Searches of Value:

BLJ (Bankruptcy, Lien, and Judgment) Screening

Tracers provides the reliable and crucial BLJ pointer data that landlords, leasing agents, employers, creditors, and other businesses need to properly manage their risk and fuel their due-diligence requirements.

Bankruptcies: Tracers returns a variety of information which may include debtor name & address, additional debtors, file numbers and dates, court locations, assets and liability amounts and type of bankruptcy.

Tax Liens: Returned data may include all tax liens, docket numbers, amounts of liens, court locations, SSN or FEIN & address of debtor.

Judgments: Returns judgment date, court location, initial amount, filing type, docket number, plaintiff information, and address on file for debtor.

Other Court Record Searches:

- Foreclosure Records
- Sex Offender Records
