

Investigative Data Solutions at Your Fingertips.

Voted #1 online investigative database.

We have the data.

Our powerful data will help you get to the truth in seconds.

Tracers' new data fusion technology provides lightning-fast reports, improved data analytics, and smart search management. You'll gain insights for identity verification, due diligence, background investigations, threat assessment, collections and debt recovery, fraud detection, and compliance.

Solve cases faster—and at a lower cost.

Private investigators need critical information in order to solve cases, and they've voted Tracers as their premier data provider. We combine public-information records with self-reported data sets to give you access to people, address and telephone histories, vehicles, businesses, assets, liens, judgments, bankruptcies, evictions, licenses, associates, and so much more—packed into an affordable, comprehensive background report that's easy to read and understand.

There's no hiding from Tracers!

Tracers has data technology that other providers lack. We'll help you locate even the hardest-to-find individuals—with the most up-to-date residential and business addresses, telephone numbers, email and IP addresses, comprehensive motor vehicle data, and outstanding off-site court runs and credit report searches. All with the exceptional concierge customer support that our clients expect and rely on.

Instantly connect with the data you need:

- Profile Reports
- Criminal Records
- Robust People Searches
- Reverse Phone Directory
- Licenses
- Court Records
- Asset Searches
- Vehicle Registrations
- State Driving Records
- Comprehensive Business Searches
- Debt, Eviction, and Foreclosure Reports
- Social Network Profile Reports

Search. Verify. Locate.

We're the leading aggregator of consumer and public records data.

You'll be confident that you're accessing the most up-to-date information. We aggregate billions of records from thousands of independent data sources to deliver the most accurate and up-to-date information.

Profile reports tailored to your needs.

We deliver profile reports that are comprehensive, easy to read, and based on the search criteria you enter. Our report menu gives you the flexibility to specify exactly what type of report you want and the data you would like it to contain. We compile information from multiple searches, helping you uncover links between people, businesses, assets, and locations.

Online access – anywhere, anytime.

Our web-based investigative application is easily accessed through a standard Internet browser. That means you can quickly and accurately locate people and gain essential information about them – whenever you need to.

Advanced search logic for instant results.

Our advanced search logic sorts through billions of records at lightning speed to bring you instantaneous information about your subject. You'll find links between people, businesses, assets, and locations – connections that would ordinarily take hours or days to compile.

Optimized investigations.

Tracers provides instant access to a comprehensive database of public records that would typically take hours or days to link. This powerful tool helps you investigate subjects and businesses, uncover assets, and discover associations. It can also save you valuable time, minimizing costs associated with lengthy investigations.

Quickly uncover assets.

You'll gain access to multiple uncovered assets, including property, motor vehicles, and FAA aircraft. Our database also reveals indicators of financial distress and prior criminal activity.

Preferred data provider to the investigative community nationwide.

ABOUT TRACERS
